PERDIGAO OPENS ITS CURITIBA
DISTRIBUTION CENTER

The new DC has been built by a pool of investors and begins operations with an entirely outsourced logistics system

On November 8 2004, PERDIGAO unveils its new CURITIBA DISTRIBUTION CENTER, one of the largest and most modern in the Company. The DC is the fruit of a new partnership model in which the construction of the installations and the logistics are outsourced according to PERDIGAO's own conditions and specifications. The principal benefit is that the Company avoids investment in buildings and equipment, allocating resources preferentially to areas that are core to its business such as increased output and the development of new products.

The DC was built by CRM Logistica, a pool of investors from the state of Parana at a cost of R$ 12.5 million. Fribalog, also based in Parana, will be responsible for operating the new center, the first module of which comes on stream immediately with five thousand pallet bins and a capacity to handle 10,000 tons/month of chilled and frozen products. The new center will significantly reduce time taken in loading, unloading, separation of orders and delivery thanks to the use of state of the art technology.

The center will consolidate the operations of two other distribution centers operating in Parana -- one in Curitiba dedicated exclusively to Perdigao branded products, and the other in Sao Jose dos Pinhais, which handles the Batavo line. Thanks to the new investment, the Company will now be able to capture additional synergies and further improve the response time in supplying its approximately ten thousand statewide customers, says Supply Chain Director, Wlademir Paravisi. The center will operate a fleet of 70 vehicles responsible for 30,000 deliveries per month including loading and unloading.

According to Paravisi, the Curitiba DC will be linked to major hub DCs at Videira (SC), Marau (RS) and Rio Verde (GO). Eventually, it will be used to store seasonal products, thus accelerating the delivery of supplies to points of sale at times of seasonally driven spikes in demand.

Exhibit 99.4

PERDIGAO S.A., PRGA4 and PRGA3 (BOVESPA), and PDA (NYSE), is one of the largest food companies of Latin America and one of the largest meat processors in the world, exporting to over 100 countries.

EXPORTS CONTINUE TO BOOST
PERFORMANCE AT PERDIGAO

Profits for YTD grow 310%

PERDIGAO posted a YTD growth of 49.4% in export revenues amounting to R$ 2.006 billion. This value represents approximately 57% of total company net sales of R$ 3.5 billion, a year on year increase of 28.6%. Export performance made an important contribution to YTD net income of R$ 211.3 million in the first nine months, equivalent to an increase of 310.6% compared to the same period in 2003.

Third quarter export volume and sales registered a year on year increase of 14.8% and 31% respectively. Lower growth compared with the preceding quarter was due to weaker demand in some markets and an increase in the costs of important raw materials. The appreciation of the Real against the US dollar during the period also squeezed margins in terms of prices relative to average costs.

The Company is forecasting a growth of 20% in export volume of meats for 2004 as a whole in the light of the third quarter increase of nearly 15% and the excellent first semester performance, says Perdigao's CFO, Wang Wei Chang.

Third quarter sales volume of elaborated/processed products to the domestic market was up by 5% and by 11.6% in sales revenue. Sales to the Brazilian market in the quarter amounted to R$ 677.2 million, 12% more than reported for the same quarter in 2003. "We are expecting fourth quarter growth in domestic sales of about 5% thanks to the year-end holidays when demand for special poultry and the Seasonal Greetings Line increases", Chang affirms. Domestic sales for the first nine months totaled R$ 2 billion, a growth of 12.1%.

The increase in the principal raw material costs (industrial meats) and labor in the quarter, resulted in selling costs 23% higher. This impacted cash generation with EBITDA totaling R$ 113.6 million, 4.2% down on the same period for the preceding year. For the YTD, EBITDA totaled R$ 438.6 million, a year on year increase of 107%.

Gross profit for the quarter grew 12%, amounting to R$ 310.9 million, equivalent to a gross margin of 25.6%. Net income was R$ 40.3 million, 5.4 % more than the previous year and representing a margin of 3.3% against 3.8%.

Third quarter capital expenditures amounted to R$ 26.4 million, a growth of 36% compared to the third quarter last year. Investments were made in expanding capacity at the Rio Verde unit (GO), increased turkey slaughtering capacity at the Carambei (PR) facility, new production lines - including special cuts for export - , and adaptation of infrastructure. During the year, capital expenditures were R$ 59.6 million, 11.8% up and representing 66.2% of the amount budgeted for fixed capital investments for the year as a whole.

<PAGE>

In August, PERDIGAO announced the construction of a new industrial unit in Mineiros(GO), for poultry slaughtering and processing (turkey and Chester(R)), involving an estimated investment of R$ 165 million between 2005 and 2007. Installed processing capacity is planned to reach 81,000 tons/year by December 2008.

EXPORTS

Third quarter sales to the Company's leading overseas markets experienced variations in sales compared to the same quarter in 2003. The Middle East recorded a 6.3% decline because of lower priced inventory built up in the second quarter and the seasonal dip in demand during the summer months. Sales to the Far East market grew by 28.9% although volumes and average prices fell in relation to the second quarter. European sales were up by 21.5%, in spite of the fall in prices of processed products.

Processed pork products for the Eurasian, Hong Kong and Singapore markets continued to report significant growth with an increase of 40.8% by volume and 93.4% in sales, and for the YTD, by 39.3% and 87% respectively.

Avian influenza continues to afflict Asia, making it difficult for producers in the region to reenter the export market. However, as already forecast, prices slipped in the third quarter due to flat demand and the substitution of poultry meat for other protein sources in the principal importing countries. In addition, the 3.9% appreciation of the Real against the

US dollar in relation to the second quarter resulted in lower export revenues in local currency terms.

Average prices climbed approximately 15% compared with the same quarter in 2003, but fell 7.6% in 3Q04 compared to 2Q04. Average costs were 24.5% higher compared with the third quarter 2003. YTD average prices rose 24.3% against 12% for costs.

DOMESTIC MARKET

Elaborated/processed products increased YTD by 8.3% in volume and 13% in sales. Third quarter growth in higher value-added items reflects PERDIGAO's priority of improving the domestic market product mix. However,

demand remains concentrated on the lower-priced products, a continued indication of limited disposable income.

Average prices during the quarter were 7.4% higher, thanks to the improvement in the average prices of in-natura pork meats and the increased share of higher value-added products. Average costs were up 2.7% for the quarter but 1.9% lower for YTD.

The company's market share for ready-made dishes recorded an increase of 1.8 percentage points for the August-September bi-monthly period compared to the same period in 2003, reaching 39.6% according to Instituto Nielsen data. PERDIGAO has a 33.9% share of the market in frozen meats and 25% in industrialized meats for the bi-monthly periods August to September and July to August, respectively.

STOCK MARKET

In the capital markets, PERDIGAO outperformed both the Bovespa and Dow Jones indexes. During the quarter, the company's shares appreciated by 52.3% and its ADRs by 65.1%. Trading volume for the quarter was up by 12.9% and 206.8% in ADRs traded. The YTD average daily volume was US$ 1.6 million.

<DESCRIPTION>PERDIGAO FORECASTS INCREASED YEAR-END SALES

Exhibit 99.5

PERDIGAO FORECASTS INCREASED YEAR-END SALES

PERDIGAO expects its retail sales of CHESTER(R) to be 6% higher than 2003. The Company has been steadily improving this succulent, tender and tasty meat product over the past few years. Starting prices for the consumer at the point of sale will be R$ 6.60 per kilo, depending on purchase conditions negotiated by each retailer. This retail price is about 10% higher than last year, due to the increase in production and selling costs.

Perdigao has invested R$ 3 million in marketing and an intense publicity campaign as a prelude to the arrival of the CHESTER(R) POULTRY BRAND on the supermarket shelves for the year-end holiday period - responsible for 90% of the brand's sales volume - as part of a campaign to enhance market penetration during this period. The theme of this year's campaign is "PERDIGAO CHESTER: THE SECRET OF AN UNFORGETTABLE CHRISTMAS DINNER" and part of the Company's main Secrets advertising campaign, which was launched at the beginning of last year.

In addition to using the media, the new campaign will also include a major publicity drive in medium and large stores with a total of approximately 1,300 sales promoters for making direct contact with the consumer at the point of sale. One of the key promotion tools is a heart-shaped recipe booklet with six different ways of serving Brazil's favorite dish for commemorating special dates. The official -- www.chester.com.br -- site gives suggestions on preparing dishes and all the latest recipes.

THE SEASONAL GREETINGS LINES

PERDIGAO's year-end product mix also brings the SEASONAL GREETINGS LINEs, which includes PERDIGAO and BATAVO FROZEN TURKEY brands - indispensable for year-end festivities. The forecasted price increase for these items is about 15% compared with last year.

The increase reflects the higher demand for pork in overseas markets, especially Russia, and the increased costs of several raw inputs for both turkey and hog raising. Pork product output is expected to be slightly higher than in 2003.

The SEASONAL GREETINGS LINE, one of PERDIGAO's most traditional, is to sell approximately two thousand tons of Deboned Tender Ham, in one to three-kilo cuts; Chester(R) Tender Ham (1 kilo); Seasoned Deboned Rindless Leg (3.5 kilos) and Seasoned Tenderloin (1.5 kilo). This year, the line has two products which are new to the consumer: BATAVO PORK PICANHA STEAK, a special frozen and marinated bone-in rindless leg, sold in 900 gram to 1 kilo cuts; BATAVO FROZEN TURKEY BREAST, a choice cut of the bird, already seasoned and sold in 2.5 kilo packs, ideal for the smaller family.

Sales of PERDIGAO FROZEN TURKEY and BATAVO TURKEY should also report growth this year, the Company having invested in the expansion and modernization of production lines at its Carambei (PR) plant to cater for this extra demand. The products are sold in 3 to 6 kilo packs, come oven-ready for roasting and are easily prepared - with the housewife's personal touch all that is missing. A thermometer indicates when the bird is ready for eating, while the Handi Clamp system - heat resistant and made of non-toxic material - keeps the legs rigidly together during cooking, facilitating preparation and contributing to a more attractive dish.

PERDIGAO is forecasting sales of approximately six million birds (Chester(R) and turkey, combined), thus ensuring that it maintains the Company's leadership for special year-end poultry sales.

OPERATION YEAR-END

A special scheme has been implemented to meet demand for growth in sales and ensure the supply of CHESTER(R), the SEASONAL GREETINGS LINE, the PERDIGAO FROZEN TURKEY and BATAVO TURKEY throughout the country during the year-end holiday period. In addition to unveiling the new Curitiba Distribution Center (DC) and the expansion at the DC at Videira (SC), the number of cross docking points - locations where large tractor trailers can transfer goods to smaller vehicles - has been increased from 12 to 22. This will ensure that the Company can extend its service to at least two visits per week to each customer. Perdigao plans to augment its distribution logistics for the period with an additional 220 trucks of all sizes in addition to the 600 normally in use. The labor force at the DCs will also be ramped up by 20%.

04.01 - EXPLANATORY NOTES

11. RESERVE FOR CONTINGENCIES - CONSOLIDATED

Based on an analysis of fiscal, legal, labor and other contingencies, the reserves are determined and/or adjusted monthly to reflect the amounts considered sufficient by management and legal counsel to cover eventual losses. To cover currently pending litigation, Perdigao Companies have effected legal deposits amounting to R$ 15,822 (R$15,067 on 06.30.04) The reserves for contingencies on 09.30.04 were as follows:

	09.30.04	06.30.04
Taxes	90,103	87,788
Labour	7,859	8,349
Civil, commercial and others	11,298	11,438

Total	109,260	107,575

Taxes: Refer to administrative and legal actions, and to ICMS credits based on the interpretation of certain standards of the states. On the federal span, there are many discussions about the uses for income tax and social contribution, collection refutation of PIS and COFINS on other incomes, 1% additional social contribution over the period from June to December 1999. Said discussions on the federal span are supported in judicial and/or administrative lawsuits.

Labor: Refer to estimated losses based on history and analysis of lawsuits on individual labor complaints, principally related to overtime and inflation adjustments of wages required before Real Plan.

Civil, commercial and others: Refer to lawsuits from employees who allege work related accidents, occupational diseases, traffic accidents, property losses, physic accidents and others. The losses are estimated by legal counsel based on the lawsuits history.

12. SHAREHOLDERS' EQUITY

On 09.30.04, the capital was comprised of 44,652,384 shares, divided into 15,471,957 common shares and 29,180,427 preferred shares, all registered and without par value. Foreign investors hold 36,208 common shares and 4,997,330 preferred shares. Of the preferred shares held by foreign investors, 1,439,460 shares are equivalent to 719,730 ADRs.

The Company holds 143,495 shares of its own issuance, as treasury shares, acquired in previous periods with resources from income reserves at an average cost of R$ 5.68 (five reais and sixty eight cents) per share, for future disposal or cancellation.

The Company is authorized to increase its capital stock, independent from statutory reform, until the limit of 60,000,000 shares, divided into 20,040,000 common shares and 39,960,000 preferred shares.

Preferred shares, besides the priority of reimbursement of capital in case of Company settlement, have the same rights of common shares, except the voting right. All shareholders have equal rights to a dividend not less then 25% of net income, adjusted in accordance with legislation.

Suppliers includes cereal received on a "price to set basis", according to usual practices of the corn and soybean markets, they are priced at the time of use or setting of prices. As of 09.30.04, the balance is stated at market.

The market values of the financial assets and liabilities do not differ significantly from the corresponding values, to the extent they were agreed and registered at rates and conditions practiced in the market for operations of a similar type, risk and period. In regards to investment in Brazilian public debt bonds, the market value was obtained based on the quote of 09.30.04, and in regards to swap contracts, the quote was obtained based on the rate projection until the final maturity of the contracts, discounted by the CDI rate (interbank rate).

Executive management defines the policy for financial operations and transactions, starting with the establishment of strategies and exposure limits, previously submitted to the Board of Directors.

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Dear Shareholders,

Perdigao commemorated its 70th anniversary by announcing further capital expenditures and the construction of the Mineiros - state of Goias (GO) industrial unit for the production of turkeys and chesters(R). As part of this historic occasion, the Company developed a special advertising campaign focused on the progress and innovation that has been achieved over the past years.

Third quarter results posted increased export volume in spite of international trading conditions, which saw weakening demand with prices trending lower. This, combined with the appreciation of the Real against the US dollar in the quarter, reduced export revenues.

Perdigao's domestic market focus continued to be on the improvement in the product mix together with new product launches.

The export performance and the increase in costs and expenses during the quarter were responsible for the partial reversal of first half margins, which had been boosted by the effects of the avian influenza outbreak.

OPERATING AND FINANCIAL HIGHLIGHTS - 3RD QUARTER 2004

[OBJECT OMITTED]

>> Gross sales of R$ 1.4 billion, 21% higher;

>> Growth of 9.8% in the sales volume of frozen and chilled products;

>> Domestic market sales were 12.1% higher with a 3.9% increase in frozen and chilled product volume;

>> Exports grew 31.1%, representing 57.8% of Company net sales with frozen and chilled product volume 15.1% up;

>> Sales of higher value added products rose 9.1% and 4.6% in terms of volume;

>> Gross profit was up by 12.0%, translating into a gross margin of 25.6%, and totaling R$ 310.9 million;

>> EBITDA reached R$ 113.6 million, 4.2% down with a 9.4% EBITDA margin due to lower export prices and the pressure of costs and expenses.

>> Net income was R$ 40.3 million, 5.4% higher, representing a net margin of 3.3%; >> Perdigao's shares posted an average daily trading volume during the year of US$ 1.6 million.

INVESTMENTS AND PROJECTS

Capital expenditures for the quarter amounted to R$ 26.4 million, 36.1% more

than in the same quarter 2003 and were employed in expanding installed capacity at the Rio Verde unit as well as increased turkey slaughtering capacity at Carambei - state of Parana (PR), new production lines - including special cuts destined for the external market -, and adaptations to infrastructure. Capital expenditures in the first nine months were R$ 59.6 million, 11.8% up, and representing 66.2% of the amount budgeted for fixed capital investments for the year as a whole.

On August 19 2004, the Company announced the construction of a new industrial unit in Mineiros (GO) for poultry slaughtering and processing (turkey and chester(R)). This project will entail fixed investments of R$ 165 million between

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

During the seventieth anniversary commemorations, a further investment of R$ 64 million was announced for streamlining and enhancing the output of units in the states of Santa Catarina (SC) and Rio Grande do Sul (RS) for the 2004 - 2005 period. This expenditure will be channeled to logistic projects, infrastructure and the optimization of production lines and also includes the installation of a Shared Services Center in Itajai (SC).

OPERATING PERFORMANCE

PRODUCTION

Third quarter production of meats recorded an output of 286,100 tons, a year on year increase of 12%. This was driven by the outlook for good demand for special poultry meat and year-end seasonal products, demand in the domestic and external markets combined with changes in the product mix. Production of meats for the first nine months of 2004 was 821,000 tons, corresponding to an increase of 12.9%.

Poultry and hog slaughtering activity was ramped up by 5.9% and 17.6% respectively during the quarter to meet expected demand, an accumulated total for the first nine months of 11.7% and 14.9%. Output of other processed products grew by 24.5% in the quarter and 17.5% for the year-to-date.

DOMESTIC MARKET

Perdigao increased domestic market sales by 12.1% to R$ 677.2 million with sales volumes of frozen and chilled products up by 3.9%. Accumulated domestic market sales for the first nine months totaled R$ 2.0 billion, a 12.1% improvement with frozen and chilled product sales volume 6.3% higher.

Elaborated/processed products volume rose 5.1%, corresponding to an 11.6% hike in sales. The year-to-date increase in volume and sales was 8.3% and 13.5% respectively. The growth recorded in higher value-added items reflects the Company's priority of improving the product mix in the domestic market although demand remains concentrated on the lower-priced products, a continued indication of limited disposable incomes.

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

As part of its seventieth anniversary commemorations, Perdigao developed a special advertising campaign. It also took part in the ABRAS (Brazilian Supermarkets Association) trade fair where it launched and displayed its new products, notably Chicken Pop Corn, Franget's and Pizza Calabresa Brotinho.

The following graph shows the Company's market share:

[GRAPHIC OMITTED]

The fourth quarter is particularly important for food consumption due to the seasonal demand over the year-end holiday period. We are forecasting a 5%

increase in these sales including special poultry (chester(R) and turkey), together with traditional items such as tender ham, tenderloin, bone-in rindless leg, and Parma ham.

EXPORTS

Overseas sales in the quarter were R$ 701.2 million, an increase of 31.1%, and corresponding to 57.8% of net sales. The volume of frozen and chilled products grew 15.1%, with elaborated/processed products increasing 1.9%. These higher value-added products are exported to Europe, the Far East, the Middle East and Eurasia. Growth in sales was less buoyant because of the surplus of cooked product imports from Thailand in the European market combined with lower consumption, which triggered weaker prices.

Third quarter sales to the Company's leading markets experienced the following performances: the Middle East recorded a decline of 6.3% because of the lower priced inventory levels built up in the second quarter and the seasonal dip in demand during the summer months. The Far East grew 28.9%, although reporting a fall in volumes and average prices compared with the second quarter. European sales were up by 21.5%, in spite of weaker processed product prices in the quarter. The remaining markets such as Eurasia and Africa also posted good growth.

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Avian influenza continues to afflict Asia making it difficult for the region's producers to reenter the export market. However, as we had already forecast, prices slipped in the third quarter due to flat demand and the substitution of poultry meat for other proteins in the leading importing countries. In addition, the appreciation of the Real against the US dollar of 3.9% in the quarter resulted in lower export revenues in local currency terms.

As a result, while average prices climbed approximately 15.1% compared with the same quarter in 2003, they fell 7.6% in the 3Q04 compared with 2Q04. Average costs were 24.5% higher in relation to 3Q03, with decreased average prices and increased average costs and translating into a squeeze on margins. For the year-to-date, prices rose 24.3% against 12% for costs.

The Company is forecasting a 20% growth in export volumes of meats in 2004. Perdigao is directing meat exports originally destined for Russia to other overseas markets as well as to the domestic market because of the ban on the import of Brazilian meat by the Russian authorities.

ECONOMIC AND FINANCIAL PERFORMANCE

NET SALES

Net sales in the quarter grew 20% to R$ 1.2 billion. Growth over the first nine months of the year was 28.6%, amounting to R$ 3.5 billion thanks to favorable export markets.

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Sales of elaborated/processed products grew 11.1% and 6.5% in terms of volume for the year-to-date. However, their relative share of the Company's net sales has declined from 52.9% to 44.4% due to increasing in-natura exports.

Sales returns reported a higher increase than the net sales due to higher PIS/COFINS charges.

COST OF SALES

The cost of sales registered an increase in the quarter because of the higher costs of raw materials, grain, pork, industrial meats and labor. Compared with the second quarter, the main increase was in industrial meat costs, particularly in the pork segment. Packaging costs were 10% higher while labor costs also rose following the annual collective wage agreements and the increase in the labor force hired to meet stronger overseas demand. Higher public tariffs also drove costs upwards. The cost of sales recorded an increase for the quarter and year-to-date of 23% and 23.7%, respectively.

GROSS MARGIN

The gross margin was lower due to the fall in international prices combined with cost pressures. There was a quarter on quarter dip of 190 basis points to 25.6% from 27.5%. Gross margin for the year-to-date was 27.6% against 24.8% in 2003.

OPERATING EXPENSES

Operating expenses were 18.4% of net sales compared with 18.1% for the same quarter in 2003, while for the first nine months of 2004, this item stood at 17.3% of net sales against 19.6% for the same period in the preceding year. Increased operating expenses were driven higher quarter on quarter by

investments in the seventieth anniversary commemorative advertising campaign, in the Company's international structure as well as hikes in electric energy, freight and port charges.

OPERATING INCOME

Operating income before financial expenses totaled R$ 87.8 million, a 7.2% decrease in the quarter due to the higher costs and expenses and average product selling prices, as well as the appreciation of the Real against the US dollar. 3Q04 results compared with 2Q04 were impacted by the decline in international prices and also the currency appreciation.

For the year-to-date, the operating margin stands at 10.3% against 5.1% posted for the same period in 2003 and reflecting the excellent first half 2004 performance. Operating profit grew 157.9% to R$ 362.7 million.

FINANCIAL RESULTS

As of September 30 2004, net accounting debt was R$ 599.1 million, 31% down on the closing outstanding for the third quarter 2003. This improvement was made possible by the good cash generation and measures taken to reduce working capital financing needs - this in spite of payments on corn and soybean supply contracts and the payment of interest on equity capital to shareholders.

There was also a modification in debt profile with a reduction in the level of advances on exports and consequently, cash investments.

SOCIAL BALANCE

As of September 30 2004, the Company had a workforce of 30,943 employees, an increase of 11.6% compared with the same quarter in 2003 and representing the creation of 3,200 new job opportunities. These additional employees were allocated to the new industrial units for increasing production destined for export markets and to support the Company's growth.

Main Indicators	09.30.04	09.30.03	% Ch.
Number of Employees	30,943	27,725	11.6
Net Sales per Employee/year - R$ thousands	151.6	131.5	15.3
Productivity per Employee (tons/year)	36.1	35.7	1.2

The Company's Marau-(RS) unit was awarded the Expressao Ecology Prize for environmental management (food category), presented by the Expressao magazine.

During the year, the Company has invested R$ 52.6 million in benefits and social programs, an increase of 28.9%. Investments in the environmental area were R$ 4.9 million, 68.3% higher.

Accumulated added value was R$ 1.2 billion, 60.5% more than for the same period in 2003. Tax payments were up by 43.7% due to an increase in tax rates, notably PIS/COFINS charges.

08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

CORPORATE GOVERNANCE

Perdigao was ranked as having one of the best annual reports, for the second consecutive year receiving the Abrasca Prize for the Best Annual Report. This achievement reflects the corporate posture of focusing on transparency of information and the adoption of best practices of corporate governance.

On June 18 2004, the Board of Directors approved the distribution of interest on equity capital of R$ 50 million, equivalent to a gross value of R$ 1.12337 per share less 15% withholding tax. Payment was effected to shareholders on August 31 2004.

For the first nine months of 2004, the amount paid to Ernst & Young for planning and advisory services on international tax matters amounted to R$936,700, corresponding to approximately 1.87 times the external audit fees.

OUTLOOK

In the light of the favorable outlook for fourth quarter sales, the Company believes that it can reach the following targets in 2004:

>> Growth rates in excess of 10% for sales volume of frozen and chilled products;

>> An increase of about 18% - 20% in export volumes;

>> An increase of approximately 5% - 6% in sales volume to the domestic market;

>> Capital expenditures at around R$ 90 million.

The projects being implemented and the new investments announced provide the necessary bedrock for the sustained growth and increased value-added of the Company's businesses.

Sao Paulo, November 2004.

Eggon Joao da Silva — Chairman
Nildemar Secches — Chief Executive Officer

Exhibit 99.9

Perdigao S.A., PRGA4 and PRGA3 (BOVESPA), and PDA (NYSE), is one of the largest food companies of Latin America and one of the largest meat processors in the world, exporting to over 100 countries.

INTERNATIONAL EXPANSION CONSOLIDATES EXCELLENT EXPORT PERFORMANCE

PERDIGAO will create approximately four thousand new jobs, for the second consecutive year

PERDIGAO achieved substantial growth in overseas markets during 2004, thanks to its strategy of international expansion and the growing recognition of Brazil as a world-class producer and exporter of meat products. The company successfully penetrated new markets, mainly in Eurasia and Africa, and now serves hundreds of clients in over 100 countries.

This success is due in part to greater activity at PERDIGAO'S offices in Dubai, England and the Netherlands, plus the inauguration of its Singapore office and a new approach to the Japanese market. The result will be an almost 50% increase in exports, compared with 2003, to R$2.7 billion, equivalent to 56% of net sales.

In order to improve logistical support, the company invested in its operating structure in the port of Itajai (SC), from where more than 80% of its exports are shipped and where a team of logistics professionals implemented a project to reduce delays and costs and provide more reliable information flows. These changes have enhanced the company's competitiveness and helped cement its international presence.

Another factor behind PERDIGAO's international expansion has been the consolidation of its Perdix brand in the European and Middle Eastern markets, as well as the launching of the Fazenda brand name in Russia, for retail distribution of a whole line of pre-cooked food products. These are now distributed through over 200 sales points in Moscow and another 50 in St. Petersburg. The company intends to continue growing in this market.

The plan for 2005 is to expand exports by penetrating new overseas markets. South Korea, Malaysia and China are promising markets for poultry exports and commercial negotiations with these countries are already well advanced.

During 2004, PERDIGAO launched its ATP Project (Atendimento Total Perdigao - PERDIGAO Total Service), aimed at achieving excellence in the service offered overseas and domestic clients. The PTS project will help identify each client's individual requirements and expectations and react more quickly to his needs. The system should result in shorter delivery times and lower inventory at the client level, making it easier to handle products with validity expiry dates and resulting in cost savings.

PROSPECTS

PERDIGAO will create close to 4,000 new jobs this year, for the second year running, making it one of the country's largest employers, with approximately 31,800 employees.

The company commemorated its 70 years of existence this year by intensifying its program of investments in logistics, infrastructure and increased productivity at several of its processing plants. It also announced the construction of a new Agroindusrial Complex in Mineiros, state of Goias, for processing turkey and chester(R), which should start operations in the second half of 2006. The project will demand investments totaling R$510 million to be effected by the company and its integrated outgrowers.

This year marks the tenth anniversary of the introduction of professional management at PERDIGAO, when a pool of pension funds took over control, paving the way for a strategic repositioning of the company and initiating a cycle of steady growth, which has averaged over 13% p.a. since that time.

PERDIGAO is due to report sales of approximately R$5.5 billion for 2004, 26% higher than in 2003, thanks to higher export volumes, stronger export prices and the second semester recovery of the Brazilian economy.

The company estimates an approximately 13% increase in sales to the domestic market in 2005, as a consequence of the higher employment and overall salaries. President Nildemar Secches considers growth of this order achievable: "We are not seeing any explosion in consumption, but these two factors have a beneficial effect on food sales."

If the domestic recovery continues and absent any major changes in the international scenario, PERDIGAO expects sales volumes to grow by 9% between the two markets. The company based its 2005 budget on the assumption of 3% Brazilian GDP growth, IPCA inflation of around 6%, a slight devaluation of the Real against the dollar and a gradual decline in interest rates.

PERDIGAO expects less pressure from grain prices in 2005, due to lower international prices for corn and soy, faced with estimates of a bumper US crop. On the other hand, pork prices are expected to trade slightly higher, given that demand is forecast to be marginally higher than production.

Capital expenditures are projected to jump from this year's R$90 million to R$150 million in 2005. Following the inauguration of a new Distribution Center in Curitiba, Perdigao will spend part of its capital expenditures budget on another mega-Distribution Center at its Marau (RS) poultry processing plant and on concluding the duplication of its Videira (SC) Distribution Center capacity. The remainder will be spent on increasing production capacity and breaking ground at its Araguaia project in Mineiros (GO).

Besides the expenditures on improvements and expanded capacity, the company is also investing in a Shared Service Center in Itajai (SC), which will centralize certain administrative functions in the fields of Human Resources, Controler, Finance and Sales Support, as well as incorporating the Supplies and IT areas, resulting in more coordinated procedures and lower costs.

HIGHLIGHT

In November PERDIGAO was included in Bovespa's IBRX-50 preview, as one of the 50 most liquid shares in that month's trading. PERDIGAO shares have offered investors gains of 112% on the Bovespa during 2004 and 118% on the NYSE.
